will vest the magnitus of the fathers upon their children."

Its effects commence by deposition from the blood of current or alcorous matter, which, in the lungs, liver, and internal organs, is termed raberdes; in the glassis, swellings; and on the surface, eraptions or seres. This foul corruption, which gouders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous continuits, but they have far less power to withstand the attacks of other discusses; comequently, vast numbers perish by disorders which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which declinates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and indeed, of all the organs, arise from or

and indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking in-fection, and their health is undermined by it. factions, and their health is undermined by it.
To cleave it from the system we must renovate
the blood by an alterative medicine, and inaggrate it by healthy food and exercise.
Such a medicine we supply in

Hammonton Lands

NEW ENGLAND SETTLEMENT. BARL OPPORTUNITY - TO ALL WANTING FARMS.—It a healthy place, investigation of the Canada mand. Atlantic allroad, New Jersey divided up into tarms of twenty acres and upwards. The soil is of the test quality for the production of trutts, grains, &c. The price is \$15 to \$20 per acres, payable in easy quarter yearly installments, within a term of four years, with interest. The terms are four years, with interest. The terms are made easy, in order to insure the rapid improvement of the land, by caabling errer is dustrious man to buy a larm. It is now being extensively improved by good roads and some of the best citizens from New England and the Middle States are execting large improvements. It is a scene of the greatest improvement onto Philadelphia. Seventy five houses have been built in four months. Practical farmers and ousiness men from the length and breadth of the Union are settling there. It is an important business place, on length and breadth of the Union are settling there. It is an important business place, on account of its being in the midst of a great market. Every article raised upon this land finds an immediate sale. The water is excellent, and no such thing as fever is known. The soil is a sandy or clay loan, with a clay bottom and retentive of mannes. It is free of stones and easily worked. It abounds largely in the phosphates and sealed in

largely in the phosphates, and such is it fertility that from the crops produced both upon this land and the large area adjoining under cultivation, it will be found not to be excelled anywhere in the production of crops

most adapted to its market.

The reader may be well aware that the earliest and the best trults and vegetables come from New Jersey, which are annually exported to the amount of millions of dollars. The land, basides being accessable in every way for fertillizers, has an abundant supply

of the best quality of muck manure.

Lumber and building materials can be had on the spot at a cheap price, from the mills Other mills are now being opened, and brick yaids being started on the ground. A person can put up a frame tenement for present convenience for one hundred dollars. On account of the extensive emigration this is the best course to pursue in order to get a place to live in at first. Carpenters and builders are on hand to put up houses on the best

terms.
In settling here the emigrant has many advantages. He is within a few hours' ride of the great cities in the Middle States and New England; he is n ar his old friends and associations; he is in a settled country, where every improvement and comfort of civilization is t hand; he is in a healthy place, and is not subject to the certainty of losing the greater part of his family and his own health by those malignest fevers which make the graves of so many millions of the young and hardy, in far off regions away from home and friends Besides ac has a olid climate and

an open winter.

There three trains daily to Philadelphia and to all those who improve the railroad company gives a free ticket.

The reader will at once be struck with the advantages bete presented, and ask himself Why the property has not been taken up be-fore. The ason is, it was never known in the market; and unless those statements were of ecr no one would be invited to exare expected to do. They will see the land and expected to do. They will see the land under cultivation; they will meet persons to doubt, from their can neighborhood; they aill witness the improvements, and can judge of the character of the population. Persons should come prepared to pu chase, as may are locating and tocations are not held on refusal.

The Hammonton Farmer, a monthly Lite rary and Agricultural sheet, containing full information of Hammonton will be sent to each inquirer, and can be obtained at 25 c.s.

Title indisputable. Warrantee deeds giver Clear of all incumbrance, warrance acase money is paid. Heate to land:—Leave Vine street wharf, Philadelphia, for Hammonton by rolling at 71-2, A. M., and 5, P. M.; when there inquire for Mr. Byrnes. Boarding conveniences will be found. Letters and applications has addressed to S. COUGHLIN. tions can be addressed to S. COUGHLIN, 202 South FIFTH Servet below Walnut, Phil-adelphia, Maps and information cheerfully furnished.

TRUE TIME

AMERICAN WATCHES A MERICAN WATCHES.

These superior Watches are made by the aid of new and original machinery, expressly designed to secure with a low price, a fine scustary red to secure with a low price, a fine scustary rataland uniformyly neal and the proposed by the movements are new in construction, have been pronounced by the highest authorities to be faultises in principle and quality, and have been proved by the most exacting tests to be unfailing in action. These watches are made entire from the erude oragerials, in a single establishment, by connected and uniform process—the factory being organized upon the same system, that has been adopted in the production of the unequalled American fire arms,—which enables us to produce a movement at one-half the price of a foreign movement of the same quality. Each watch is carefully tested and is assemblanted with the maker's certificate and variants for tax years.

Alt. Foreign watches being the only ones made by machinery upon a unstorm system throughout, Nearly at hand hade watches are defective, and are conditually getting out of order. In many parts of the country it is impossible to fird good watch repurrency and watch repurring is always uncertain and expensive. The immountation of American watches dis uses of this difficulty, and country merchants, as well as watch dealers, can keep watches as a part of their miscellaneous stock, and thus supply their customers with a NEW STAPLE, which may be used as any other article, without mystery or humbug. Sold by the trade generally.

ONLY DIE DOLLAR for ALL.

The Change to Make Money, comprising Russer's, farter's, Con's, Marchine, Down, Bombar Freecutts, Oil and Sambours, Bornes, Bornes, Morter School, Sambour Sambours, Sin Sor's, Metropolitan, and Sambours, Sin Sor's, Metropolitan, Sambours, Sin Sor's, Sambours, Sambours, Sin Sor's, Sambours, Sin Sor's, Sambours, Sambours, Sambours, Sambours, Sin Sor's, Sambours, LOTTERIES.

The well-known Maryland Consolidated Lotter les, of which R. France & Co., are the managers are chartered by the state of Maryland, and a commissioner elected by the people, who is sworn to superintend and certify that everything connected with them is done in a strictly honorable manner, and that the interests of parties who reside at a distance are as well protected as if they themselves were present at the drawing. Another fact which the managers call attention to, is, that all persons have a legal right to send orders for tickets to Maryland, as lotteries are legalized by special law in that state. A lottery is drawn every day of the month. If no particular class is named, orders are filled in the first drawing to take place after the communications comes to hand.

every day of the month. It no particular class is named, orders are filled in the first drawing to take place after the communications comes to hand. The prices of tickets vary from \$1 to \$20 No tickets are, however, sent unless the money for the same is received with the order. The drawings are upon he principle of one number on each tick et (after the Havana pian), and Ternary combination. Prizes vary in amount from \$20 to \$100,000. All orders for tickets or packages will receive prompt attention, and the drawing mailed to all purchasers immediately after it is over.

Address T. H. HUBBARD & CO.,

No. 39 Fayette st., or Box No. 40,
Baltimore, Maryland.

The Drawn Numbers of the Maryland Lotteries are published by the State Commissioner in the following Papers, viz: Sun, Clipper, Patriot, American, Argus, of Baltimore; also, the National Intelligencer, and Union, of Washington, D. C.

DR MORSE'S

INDIAN ROOT PILLS.

For Morse, the inventor of storce's Indian Loot Pills, has spent the greater part of his life in traveling, having visited Europe, Asia and Africa as well as North America—has spent three years—mong the Indians of our Western country—b was in this way that the Indian Boot Pills were first discovered. Dr. Morse was the first man to establish the fact that all discovers from impurity of the Blood—that our strength, health and hig depended upon this vital flaid.

When the various passages become clogged, and do not set in perfect harmony with the different unctions of the body the blood loss its action, becomes thick, corrupted and diseased; thus causing all parts sickness and distress of every name; our strength is exhausted, our health we

becomes thick, corrupted and diseased; thus causing all parts sickness and distress of every name; our strength is exhausted, our health we are deprived of, and if nature is not assisted in throwing off the stagnant humors, the blood will become choked and cease to not, and thus our light of life will forever be blown out. How important then that we should keep the various passages of body free and open. And how pleasant to us that we have it in our power to put a medicine in your reach, manely, Morse's indian Root Pills, manutactured from plants and roots which grow around the mountainous cliffs in Nature's garden, for the health and recovery of diseased man. One of the roots from which these Pills are made is a Suderfic, which opens the pores of the skin, and assists Nature in throwing out the finer parts of the corruption within. The second is a plant which is an Expectorant, that opens and unclugs the passage to the lungs, and thus, in a woothing manner, performs its duty by throwing off phleges, and other numors from the lungs by copious spitting. The third is a Diaretic, which gives ease and double strength to the kidneys; thus moouraged, they draw large amounts of impurity from the blood, which is then thrown out bountifully by the urinary or water passage, and which could not have been discharged in any other way. The fourth is a Cathartic, and secompanies the other properties of the Pills while engaged in purifying the blood; the coarser particles of impurity which cannot conveyed off in great quantities by the bowels.

From the account of impurity which cannot conveyed off in great quantities by the town of the life of the body, which is the blood, becomes an properties of the Pills while engaged in purifying the blood; the coarser particles of impurity which cannot conveyed off in great quantities by the town of the part of

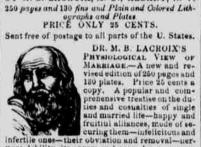

pain is driven from the system, for they cannot remain when the body becomes so pure and clear.

The reason why people are so distressed when sick, and why so many die, is because they do not get a medicine which will pass to the afflicted parts, and which will open the natural passages for the disease to be cast out; hence, a large quantity of food and other matter is ledged, and the stomach and intestines are literally overflowing with the blood, which threws the corrupted matter through every vein and artory, until lite is take: from the body by disease. Dr. Morse's PILLS have added to themselves victory upon victory, by restoring millions of the sick to blooming health and happiness. Yes, thousands who have been racked or tomented with sick ness, pain and anguish, and whose feeble frames have been scorched by the burning elements of raging fever, and who have been brought, as it were, within a step of the silent grave, now stand ready to testify that they would have been numbered with the dead, had it not been for this great and wonderful medicine, Morse's Indian Root Pills. After one or two doses had been taken, they were astonished, and absolutely surprised, in witnessing their charming effects.—Not only do they give immediate ease and strength, and take away all sickness, pain and auguish bu they at once go to work at the foundation of the disease, which is the blood.—Therefore, it will be shown, especially by those who use these Pills, that they will so cleane and purify, that disease—that deadly enemy—will take its flight, and the flush of youth and beauty will again return, and the prospect of a long and happy life will cherish and brighten your days.

BRONCHITIS, HOARSENESS, SORE THROAT, COLDS, COUGHS in early stages, &c.—Sheldon's Black Candy and Brown's Bronchial Troches, are excellent remedies for the above complaints, and sold only by March 22. Medical.

A Card from Dr. Jas. M. Jarrett, Of the New York Lung Is Irmary.—My connection for the past eight years with the above institution, as Chief Physician, and a twelve years course of steady devotion to the curs of Pulmonary Consumption and its kindred discase, together with my unrivalled opportunities and auvantage of pathological research—sided not a little by a perfect system of Medical Inhabition—has anabled me to arrive at a decisive, direct and and successful course of treatment for the positive and radical curs of all diseases of the Throat, Lungs and Air-Passages. By Inhalation the vapor and curative properties of medicines are directly addressed to the diseased organs and the integument. I do not advise the use of Medical Inhala ion of any kind, to the exclusion of governel treatment; and although I consider it a nacful adjutant in the proper management of those fearful and often fatal diseases, yet I deem it very a necessar that each patient should have the locality of the present and local treatment. The success of my treatment in the above diseases, and the high character of the institution over which I have so long had the honor to preside, are too well known to need any sullegy or comment from me. at the colicitation of many private and pretessional trients, through where philanthropic aid the above chnirty has been long and liberally supported, and after due consideration, I have concluded to make such arrangements as will bring the benefits of my experience and treatment within the reach of all, and nat confine myself, as heretofree, to those only who entered the Infirmary, or who were able to vait me at my office. Hopping therefore that the arrangement will give entire satisfaction, both to my professional orethren and the public, I would respectfully announce in conclusion, that I can not be consulted personally or by letter, an all diseases as above, and that the medicines, the same as used in the Institution, prepared to suit each individual case, Inhaling Vapors, Medical inhalers, &c., &c., wi

The New England States in one Year

The New England States in one Year.

The Restorative of Prot. O. J. Wood for Restoring hair perfective and permanently, has never yet had a rival, volume after volume might be given front all parts of the world and troo. the most intelligent to prove that it is a perfect lessorative; but read the circular and you cannot doubt; read also the following:

The Hair.—Prop.e have for centuries been afficted with baid heads, and the jonly remedy heretofore known, has been those abominable wigs. By a recent discovery of Professor Wood these articles are being fast dispensed with, but a great many persons still patronize them, because they have been so often imposed upon by Hair Tonics of different kinds. To all such persons we carnestly make the request, that they will try once again, for in Wood's Restorative there is no such thing as fail. We knew of a lady who was baid, who used the article a shirt time, and her head is now covered completely with the timest and most beautiful curis imaginable. We knew of numerous cases where the hair was rap diffalling out, which it restored in greater perfectless thin it ever had oeen before.

It is also without doubt one of the best articles for keeping the hair in good condition, making it soft and glossy removing dandruff, and has proved itself the greatest enemy to all the ills that hair is heir to.

It is the duty of every one to improve their personal appearance though some may differ its regard to the ways of doing it; but every one will

and appearance though some may differ in regard to the ways of doing it; but every one will admit that a beautiful head of hair, either in man or woman, is an object much to be desired, and there are no means that should be left untried to obtain auch a consideration.— Woman's Adsociate, Philadelphia.

obtain such a consideration.— Woman's Advanced. Philadelphia.

Cochocton, O., Nov. 17, 1856.

O. J. A cod & Co.—Gents: As I have been en gaged in selling your Hair Restorative the last season for one of your local agents (R. M. Hacklinson) and having experienced the beneficial effects of it myself. I would like to obtain an agea cy for the State of Ohio or some state in the West should you wish to make such an arrangement, as I am convinced there is nothing equal to it in the United States for restoring the hair. I have been engaged in the Drug business for several years, and have sold various preparation for the hair, but have found nothing that restores the secretive organs or invigorates the scalp as well as yours, being fully convinced that your restorative is what you represent it to be, I would like to engage in the sale of it, for I am satisfied it must sell. Yours truly, S. T. STOCKMAR.

Wayland, Mass., Feb. 6, 1787.

Prof. O. J. Wood & Co.—Gents: Having realized the good effects of your Hair Restorative, I wish to state, that finding my hair growing thin, as well as gray, I was induced from what I read and heard, to try the article prepared by you, to promote its growth and change its color as it was in youth, both of which it as effected compiletely. In the operation I have used nearly three bottles. Yours, &c., IAMES FRANCES.
